More Explanations About Seed Grain

There appears to be a good deal of confusion existing among farmers in regard to handling seed oats.

In order to secure enough seed oats for seed purposes the government is commencing cartage of oats suitable for seed on track which they have reason to suppose are being used for feed or milling purposes. This is not intended to interfere with the shipment of oats from one farmer to another or from one group of farmers to another group of farmers where the oats are legitimately required for seed purposes and as fit for seed. In shipping oats in cartage lots, therefore, when ordering seed oats farmers should get a permit from G.M. Stewart of the Dominion Seed Branch Calgary if they secure such a certificate entitling farmers to special rates on seed grain and the oats will not be interfered with. This matter is handled entirely through the United Farmers of Alberta and farmers who wish to bring in seed oats should apply to the nearest local secretary of the U.F.A. for a seed grain certificate entitling them to a special seed grain freight rate.

Looks Good For Foremost Branch

"You need say nothing to me to strengthen my idea that the gap in the line ought to be filled up," was Sir Henry Daykin's statement to J. G. Robertson, of Foremost, representing the Board of Trade, the U.F.A. and the citizens along the Foremost branch at the hearing of complaints by the railway commission this morning. "I have been trying for a long time to get this line built. We will see what we can do towards getting the line built this year. That's what we want."

Town of Bow Island

Notice to Dog-Owners.

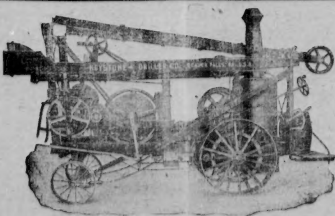

Owners of dogs are hereby notified that all Dog Taxes are due and payable on the 1st January of each year. Notice is further given that the dog taxes must be paid by MARCH 10th, or the provisions of the By-law will be strictly enforced. Taxes are payable at the office of the Secretary, Town of the town. By order of the Police Committee. R. DUFFY, Chief of Police.

Town of Bow Island

Assessment Roll 1919.

Notice is hereby given that the Assessment Roll of the Town of Bow Island for the year 1919 has been prepared and is now open to inspection at the office of the secretary-treasurer of the town from Ten o'clock in the forenoon to Four o'clock in the afternoon on every day which is not a public holiday except Saturday (and on that day from Ten o'clock in the morning to Twelve o'clock noon), and that any taxpayer who desires to object to the assessment to himself or of any other person must, within thirty days after the date of this notice lodge his complaint in writing at my office.

Dated this 28th day of February, W. KENNETH BAYFEMAN, Assessor.

DRILLER OF ARTESIAN & ORDINARY WATER WELLS

Artesian water absolutely guaranteed. Twenty years' experience. Have put down sixty wells in the district. Address—L. H. WRIGHT, Bow Island.

U.F.A. Have Fine Social Evening

The card party and dance which was given by the U.F.A. and U.F.W.A., last Thursday night was a decided success. The committee was taxed to its utmost to get tables and room to play them, for all those who wished to play. Twenty-six tables were in play and there were many guests who did not play at all. When time was called and some cards examined, the prizes were awarded thus:—Ladies first, Mrs. Hoaglin; Consolation, Mrs. Holloman. Gentlemen's first, Mr. H. Albertson; Consolation, Mr. W. Potter.

A nice lunch was served, the members of the U.F.A., doing the serving. After this the floor was cleared for the dancing. Mr. and Mrs. Archie Hoaglin played several selections during the early part of the evening and then played for the dances. The proceeds were over \$800 which was very gratifying indeed to the committee in charge.

UNITED SUNDAY SCHOOL.

The United Sunday School met as usual on Sunday morning. Although the day was disagreeable fifty-four scholars were present. After the opening exercises, the Rev. A. D. Richard's of Medicine Hat took charge of the school. He reviewed the life of Moses in a very interesting way. Then in the evening Mrs. M. H. Hoaglin took the service. The first part of his talk was especially to the boys and to the girls, he said they should watch their ways, actions, tongues, their chums, hearts, heads and hands, in such case he gave a very striking illustration. Then as he was to preach the missionary sermon he pointed out to how Abraham was ready at God's command to give his best, his son Isaac, and how God gave his own Son, Jesus Christ, to die for us, and thus showed us that we should give our best.

The crowd that attended the meeting called for the irrigation project was gratifying to the speakers and they felt that the people here were wanting anything that would insure a crop of some kind in any year. Mr. W. H. Fairfield, the general manager of the Lebidge Experimental Farm, Walter Huckle of Medicine Hat, Mr. F. H. Peters, Commissioner of Irrigation and Don Back of the C. P. R., were the speakers and handled the subject very well indeed. After the address the meeting appointed committees to interview farmers relative to signing up for "water service" if project goes through.

Mr. and Mrs. W. Henderson returned this week to Bow Island from Boston, U.S.A., declaring that it takes a terrible lot to beat one little old Bow Island after all.

Peace Conference Has Decided To Adjourn

London.—The peace conference at Paris has decided to adjourn as a result of the attack upon Premier Clemenceau, says an Exchange Telegraph dispatch from Paris.

The repatriation committee on assembly passed a resolution proposed by Premier Hughes of Australia, expressing sympathy for M. Clemenceau and denouncing the attempted assassination.

The commission for the study of Rumanian territorial questions voted under the chairmanship of Captain Andre Tardieu and continued discussion of the claims of Rumania, according to a communiqué issued by the commission.

Paris.—Prospects of an early accomplishment of its objects by the peace conference have been marred by clouded by the wounding of Premier Clemenceau by a murderous anarchist. While the actual attempt might not be serious for one in the prime of life, the effect of the shock upon a man of Mr. Clemenceau's age forces ground for the fear that his best further participation in the work of the conference will be limited. Proceedings of the conference to date, however, have rather suggested that Mr. Clemenceau is one of the indispensable members of the conference. Premier Clemenceau's wounding in France with authority that no other public man can exercise, and in his absence from the council when peace questions, as they affect the interests of France, come up for consideration may prove unfortunate.

None of the difficult and in some measure dangerous questions, in which France is involved has yet been decided. They include territorial problems in the East, and the fixing of a new eastern frontier, reparations and indemnities.

There had been a growing hope that as a result, of protests from various quarters that some attempt was to be made to hurry progress of the conference. The indications were that three weeks of steady work with but little to report in the interval. All committees have been told they are to be in a position to make definite reports to the conference by the middle of March, and it was expected that following the return of President Wilson these decisions would be speedily dealt with by the council of ten, and referred to the plenary conference for consideration.

Report Is Denied

London.—A belated Angertham dispatch says that according to Berlin advice President Erzberger, on behalf of the German armistice commission, handed to the allied commission a note describing as a preliminary step the report that Germany was not demobilizing and had assembled eighteen divisions in the neighborhood of Thion.

Britain Must Keep a Strong Army on Rhine

London.—Winston Spencer Churchill, secretary of state for war, paid a high tribute to Premier Clemenceau at a luncheon given at the Mansion house on the subject of demobilization and the army of occupation. The object of the meeting, said Mr. Churchill, was to ask the employers throughout the country to do their best to assure the men who had been retained in the army that they would retain their places and pay, as they had been doing in the past.

"We have introduced a new scheme for the organization of an army appropriate to the immediate situation under which we propose to retain about 900,000 men for the defence of the British and allied interests during 1919," he continued. "We are letting go three men out of every four serving with the colors on November 11 last year of peace, and we have stopped, and we are paying the fourth man double to finish up the job. All information received goes to show that the soldiers regard this treatment of the problem as essentially fair."

"We are engaged at the present time in forming a voluntary army to garrison the British empire, repelling the old army, which served us so well through the years of peace, and was not found wanting when the hour of battle came. But at least a year will be required to raise this voluntary army. At the present time, we are obtaining recruits and volunteers, some with two or three years service,

Ask Explanation

Stockholm.—It is learned that the American minister here, after a conference with the Swedish foreign office, has transmitted for consideration of the allied governments at the peace conference, a suggestion that Sweden, which since America's entrance into the war had been looking after the interests of German and Austrian prisoners on behalf of the Siberian government, ask for permission to at once return more than 25,000 prisoners by the way of Vladivostok. The communication also asks that tonnage and foodstuffs be placed at the disposal of Sweden so that the transfer can be made.

Want Representative Meeting

National Industrial Conference Will Be Convened on February 27
London.—The ministry of labor announces that the national industrial conference will be convened on February 27 at Westminster, and that it is desired that the conference be as fully representative of British labor as possible.

According to unofficial statements, 500 invitations have been issued and Sir Robert S. Horne, labor minister, will preside. The conference is expected to make its report by the end of March.

At an emergency meeting of the consultative committee of labor's triple alliance, it has been agreed that, in view of the government's action in calling the conference, "nothing should be done precipitately to bring the trades union movement into dispute."

Dual Leadership Suggested

Ottawa.—Succession to Sir Wilfrid Laurier as leader of the opposition continues the one topic of political speculation. Mr. Fielding's name is apparently most in favor, although there is some disposition to question whether he would be acceptable to the French members who would constitute a majority in the party caucus. A suggestion is made in some quarters that some form of dual leadership, with Mr. Fielding and Mr. Lemieux, might be arranged for the session.

Two Subs For Canada

Ottawa.—The British admiralty has offered as a gift to the Canadian naval forces two submarines now at Bermuda. Sir Robert Borden, on behalf of the Dominion, has accepted the offer.

The lords commissioners of the admiralty trust the gift will be accepted as some recognition of the great contribution made to the defence of the empire by the Canadian naval forces in the course of the war.

Farmers Ask For Reforms Britain Faces

Non-Partisan League Holds Revival and Emphasizes Old and New Remedies

Calgary, Alta.—At a convention of the Alberta Non-Partisan League, resolutions were passed calling for organization of the province for political action and co-operation with the U.F.A. in federal action; repeal of the wartime elections act, emphasizing the right of women to sit in the federal parliament; favoring the forming of a council consisting of U.F.A., trades union and organized farmers to decide on an immigration policy and the treatment of aliens; demanding that the government find employment for all who desire work by organizing industry for service and the freeing of land held by exploiters, that provision be made to permit all aliens who wish to return to their native land and in the case of those who remain employment be placed at the disposal of them or failing this they be sent home at the government's expense.

Other resolutions called for freedom of the press and of speech; the enactment into law of the order-in-council prohibiting inter-provincial shipments of liquor, free treatment to all tuberculosis patients, and badly demanding a drastic tax on incomes, especially the large ones, which shall not be less than the minimum of that required in the United States.

"We will return home with a full appreciation of how much Great Britain loves her dominions, and how grateful she is for the soldiers and sailors who have rendered to her. Our gratitude for that service is only equalled by the admiration for the valor and spirit of the men from the dominions. Do not forget what vast power for good there is in the union of British-speaking peoples who are in touch with all the other races of the world. It is impossible to exaggerate the wonderful influence that will be the result of the coming of the new world upon the other peoples of the world."

"THE MAIN BUSINESS OF OUR CLUB SHOULD BE TO BOOST OUR TOWN AS A TRADE CENTER."

Has our community a Commercial Club? How often does it meet? Once a year or every day? What is our club doing to increase its membership? Has it buried the last of the knackers? How many factories has it secured in the last ten years? The most progressive towns have a Commercial Club meeting every day in the year. New members are added every day. The membership takes in farmers, as well as business men. There is something doing all the time. The greatest energy is expended on boosting the home market. Every body works at it, and the result is the Commercial Club puts the town on the map as a live community. This is all of the best business. Are we content to be anything less than the best? Let's get into that class, and work every day to stay there.

THE COMMERCIAL CLUB

Has our community a Commercial Club? How often does it meet? Once a year or every day? What is our club doing to increase its membership? Has it buried the last of the knackers? Viceroy Utters Warning

Reaction Against Authority Unlikely To Leave India Untouched
Delhi.—In opening the legislative council, Lord Chelmsford, the viceroy, said it was important that the powers which had enabled the public peace to be maintained during the war should be replaced by adequate substitutes. The reaction against authority which had manifested itself in many parts of the world was unlikely to leave India untouched. The viceroy added counsel to his eyes to the undoubted existence in India of definitely revolutionary organizations and it would fall to his duty if it were not prepared to deal with them.

Special measures were clearly essential for maintenance of His Majesty's government and the lives and property of the citizens. He therefore commanded two bills with regard thereto for their earnest consideration.

Basel.—At a meeting of the German peasants' union held at Berlin, the president of the organization declared in an address that the emperor was to be blamed for having delayed too long the declaring of the award, and his weakness caused the rise of socialism, according to a Berlin dispatch received here.

He said that British money had fostered dissatisfaction in the navy and had led to the military collapse last November.

All the speakers, it was said, asserted that the peasant union would be loyal to the monarchist movement.

W. N. U. 1252

Responsible Task

Viccount Bryce Delivers Message to Canadian Citizens in London

London.—"Providence has ordained the British to be the race to do more for the welfare of mankind than any other people," declared Viscount Bryce at a meeting of Canadian citizens in London.

"Let us see," he continued, "that we as an empire never fail in this great and responsible task. Many of you are returning to your native land full of hours, and conscious that you have done your part in having, not only the empire, but civilization. You will be honored by succeeding generations as the heroes of Trafalgar and Waterloo are honored."

"I hope you will return home with a full appreciation of how much Great Britain loves her dominions, and how grateful she is for the soldiers and sailors who have rendered to her. Our gratitude for that service is only equalled by the admiration for the valor and spirit of the men from the dominions. Do not forget what vast power for good there is in the union of British-speaking peoples who are in touch with all the other races of the world. It is impossible to exaggerate the wonderful influence that will be the result of the coming of the new world upon the other peoples of the world."

Condemn Action of Jugo-Slavs

Italy Does Not Like Idea of Arbitration
Rome.—The Italian press indignantly condemns the step taken by the Jugo-Slavs in asking that President Wilson arbitrate conflicting claims to territories along the Adriatic. The Epoca says:

"Arbitration is a means for avoiding war, not concluding it when it has already been decided by arms."

"Italy can despise the unworthy attacks brought against her," says the Epoca Nazionale. "She must keep a sharp lookout and have faith in herself. In that way she was able to give her hereditary enemy a mortal blow. Now she must be firm at Paris so that her best blood shall not have been shed in vain."

The Sorriere d'Italia says: "It is to be foreseen that the Jugo-Slavs and their friends will take advantage of the effect of the Italian refusal to submit territorial claims to arbitration on public opinion in other countries. But this attempt, we do not doubt, will fail."

Return Stolen Treasure
London.—Enormous treasure trains left Vienna for Trieste, says the special correspondent of the London Daily Telegraph. They carried financial securities, bank deposits, jewels and private fortunes estimated at more than one million kronen (approximately \$200,000) and comprised first restitution of confiscated property which Austria is compelled by victorious Italy to make.

Foe Inserts New Phrases Into Text of Armistice

Under Foreign Office

Basel.—The German armistice commission will in future be under control of the foreign office, according to an unofficial dispatch from Berlin received here. Foreign Secretary Brockdorff-Rantzau will reserve to himself, supreme directions of the armistice. The national assembly will naturally be consulted on all decisive questions it is said. The report of the resignation of Captain von See, naval delegate from the German armistice commission, is semi-officially declared to be unfounded.

Ask \$15 Increase

Winnipeg.—A flat increase of \$15 per month for all civic employees is the demand to be presented at the special council meeting to be held on the wages question, it is learned. Increased cost of living is the basis of the demand. The demand if granted will add \$170,000 to the city's payroll.

"THE MAIN BUSINESS OF OUR CLUB SHOULD BE TO BOOST OUR TOWN AS A TRADE CENTER."

Paris.—Communications and declarations made to the press by the German government or Maxims Erzberger, chairman of the German armistice delegation contain "flagrant inaccuracies which require immediate correction," declares an official note issued. The note says:

First.—The text of Chancellor Scheidemann's official communiqué to the press by the German government differs notably from the original text handed to Marshal Foch by Erzberger at Treves on February 16 at six o'clock p.m. The first phrase is communicated to the press follows:

"The German government is conscious of the grave consequences that acceptance of the convention must entail."

The first phrase of the text as handed to Marshal Foch by Herr Erzberger reads:

"The German government is conscious of the grave consequences, that either acceptance or refusal of the convention must entail."

In the same way a whole new phrase has been inserted into the text communicated to the press as follows:

"It cannot yet be said if we are able to follow the instructions of the high command."

This phrase does not figure in the text as given to Marshal Foch by Erzberger.

"The German note was handed to Marshal Foch before the signing of the convention and was accepted by him. From our point of view then it must be considered as forming part of the new armistice convention."

Marshal Foch has already informed the president of the German nation that he will not accept the terms dictated by the allied and enemy plenipotentiaries alone formed part of the armistice convention. This note does not come within that category. It is absolutely independent of the convention. It constitutes a mere manifestation of the purely Platonic activity of Scheidemann.

Third.—Finally Erzberger alleging pretended declarations of Marshal Foch has affirmed that:

"Four parties would be opened at an early date on the question of peace preliminaries."

The fact is that Marshal Foch categorically refused to give the slightest attention to this subject notwithstanding the lively insistence of Erzberger.

Cottin Son of French Workman

Was Reader of Novels and Books on Astronomy and Sociology

Paris.—Emile Cottin, who attempted to assassinate Premier Clemenceau, was taken to state prison. Examination of the automobile in which he was driving, revealed that he was fired upon shored seven distinct bullet marks.

The father and mother of Emile Cottin, who was the son of a Premier Clemenceau, are simple working people. They live in Rue Compagnie, where he works in a factory. In Jazy Les Malineux, a brother and sister also works in a factory there. A second brother is five and a half years old.

Neighbors of the family describe Emile Cottin as being addicted to neither smoking nor drinking, but say he was a great reader of novels and books on astronomy and sociology. His father tried in vain to correct the anarchistic ideas of his son, but the latter ridiculed him as being old-fashioned. When he heard the news of the attempted assassination, the father was so shocked that he made a presentiment, it was said, that the criminal was his son.

Emile Cottin has been under treatment for an emotional fever of the heart and a disease of the larynx.

Premier of France Shot by Anarchist

Paris.—Premier Clemenceau, characterized by Lloyd George as "France's grand old man," was attacked by an anarchist, Emile Cottin, known as "Milton." Seven shots were fired, three of which struck the premier. One bullet lodged in the muscles of the shoulder. The premier, deeply hit, so far as it is at present known, not injuring the spine or penetrating the lungs. Two bullets penetrated the right arm and hand, and two other bullets are reported to have passed through the premier's clothing.

At the time of his attempted assassination M. Clemenceau had just left his home to drive in a motor car to the conference with Arthur J. Balfour, British secretary for foreign affairs, and Ed. Edward M. House, of the American peace delegation. Though bleeding profusely, M. Clemenceau, in the hospital, has been reassured the moment he reassured the members of his household and waved aside anxious enquirers with "It is nothing." Latest reports from his attendants are to the effect that his condition was satisfactory and that he was cheerful throughout the day despite occasional fits of coughing. For the present, it has been decided by the surgeons that the extraction of the bullet may not be necessary, and arrangements have been made for the making of radiographs of the injured parts.

Alberta Irrigation
Receives Attention

OWASO.—The idea of irrigation in it affects Southern Alberta is being thoroughly gone into with members of the Dominion government by G. H. March, president of the Lethbridge Board

of Trade, and W. A. Buckanan, M.P., who arrived here this week for the session. Mr. March has been conferring with Hon. Mr. Meighen, minister of the interior, and has gone into the situation thoroughly with Mr. Buchanan. A final interview with the authorities is being held, and Mr. March expects to return west in a few days. He will make a full report of his negotiations at the conference to be held in Lethbridge following his return. It is expected that he will have something to announce as to the policy to be adopted by the government in reference to the various projects now under consideration in the Lethbridge district.

The Thriftiest American
is Franklin's New Name

The "Thriftiest American" is the phrase applied to Benjamin Franklin, in the latest literature issued by the United States National War Savings Committee. As a statesman, a statesman, philosopher and inventor his reputation has stood high since his death over a century ago. But today it is as a teacher of the gospel of thrift that he is being recalled to the great mass of the people of the United States. On the new issue of the United States War Savings Stamps his likeness is also to be found.

The explanation is that today the leading men of the world, those

The "Life-Like" Phonograph

When we have placed a New Edison Diamond Amberola in your home, put your favorite record on the phonograph, and then stand with your back to the instrument as the melody flows out.

The illusion is perfect. You almost feel that someone is in the room singing or playing—so "life-like" is the reproduction.

The NEW EDISON
DIAMOND AMBEROLA
and AMBEROL RECORDS

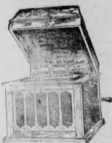

are Mr. Edison's final achievement in instruments and records of this type. Enjoy them to your heart's content by taking advantage of

Our Free Trial Offer.

Come in and select any instrument you like—we'll send it to your home with 12 of the finest Amberol Records you ever heard. Keep this outfit a week—play it to your heart's content.

If you decide to keep it, we will arrange convenient terms if you like this method of payment.

Blaine Drug & Book Co., Bow Island, Alta.

The New Edison Diamond Amberola

charged with directing its affairs, realize that the exercise of thrift is absolutely necessary to the restoration of the normal life of all countries. It is to be observed also that these men consider it just as necessary for the people of the United States and Canada—countries undamaged by the war—to save as it is for those of France or Belgium to do so. It is the condition on which financial and industrial recovery is based.

The Canadian War Savings Plan makes easy this very necessary practice of saving. It also makes saving profitable. Four dollars paid today for a War Savings Stamp will bring \$5 in 1921. Twenty-five cents buys a Thrift Stamp and if of these make a War Savings Stamp on which the government pays a 12 per cent compounded half-yearly. Could saving be made easier?

BOW ISLAND - ALBERTA

SPRING AND SUMMER, WHAT?

Mr. Farmer and lot owner what are you planning to raise in your garden this spring and summer, may be you are not thinking anything about it, just loafing around these fine winter days or finding fault with your best neighbor, but there was never anything accomplished worth while in this old world without some planning and studying ahead as to what is the best thing to do and the best way to do it.

I was much interested in hearing that there was a meeting at Bow Island a short time ago in which people were talking about irrigation in this district, which I believe would be a boon for this part of Alberta. There is much to be done, however, to ensure the moisture we already have, little as it is, while we are waiting for irrigation. I do not have reference so much to summer-fallowing and proper cultivation when I speak of conservation of moisture, as I do to some other methods not much thought of or put to use in this part of the country, especially for raising vegetables and small fruits, and I suppose some of the readers of this article will smile and treat it as a joke to speak of raising fruit on the bare prairie in this part of the country without irrigation, but if any of you doubt my words that I did not raise them as fine as strawberries and raspberries ever grew out there in our prairie, five and one half miles south of Winnipeg and about ten miles south east of Bow Island, ask Mr. Hurd and Mr. Gaudin and many others who are there. We picked about fifty quarts of first class strawberries from less than one acre last of an acre last year.

The first picking was in the last of June, and the last was I think the last of October. There may be some who do not know that there is a kind of strawberry called, properly, lion, overgrowing for they are in blossom or bearing most of the season from June to November when properly raised, and that is the one which I have taken care of. You cannot sow it like you can a crop of wheat, and do so many until they are ripe. They must be trimmed and cultivated carefully. We dammed up the creek close to our house and when the snow melts in the spring it fills up to the level of the dam, and usually the water remains as an artificial lake all summer. Then we planted the fruit on the side hill contiguous to the lake so that the soil will retain moisture most of the summer, and this is how it is possible to raise fruit with only a few rainfalls. There are many places on the prairie with little or no water, a pump and a scraper which can be made available to such a fruit and vegetable garden as well make life worth living.

Proceedings Of the Town Council

Bow Island, Alberta,
February 21st, 1919.

Regular meeting of the Town Council was held in the Council Chamber on Friday the 21st day of February. Members present Mayor Reid, Councilmen, Stevenson, Hurd, Aldermen, Oliver, Bratton and Bailey, Secretary, Treasurer, Bateman and Solicitor Prosser. Minutes of the last regular meeting were read and approved.

The following accounts were read: J. P. R. for freight and chemicals, \$11.00; Bonhams, \$11.00; J. P. R. for press on water test, \$2.50; R. S. Hebble, Ford Truck, \$25.00; Alberta Government, Telephone bill, \$10.00; \$20.00; R. L. Christie, dog tags and sundries, \$6.25; Western News, tax sheets and printing, \$12.25; R. S. Hebble, liquor, \$10.00.

Bow Island Review, printing and advertising, \$5.00; J. H. Martin, day-labor, children and boy, \$3.00; E. L. Irving, labor on gas line, \$12.00; J. Lave, labor on gas line, \$2.00; Bow Island Sewer Pipe Syndicate, Lumber for sidewalks, \$20.00.

Stevenson - Hurd - "That accounts as read be referred to finance committee and paid if found correct."

Secretary-Treasurer stated that he had called on the Utility Board at Edmonton regarding the rebate issue for Cement Sidewalks, and that the Board suggested that the amount be reduced to \$600; Secretary was instructed to write the Utility Board asking them to let the matter stand adjourned for a couple of months.

Stevenson - Hurd - "That the estimate as submitted by the various committees be accepted." Carried unanimously Hurd - Stevenson - "That we levy taxes in the sum of at least \$12,000, to raise the revenue required for town purposes for the year 1919." Finance By-Law Submitted carried unanimously.

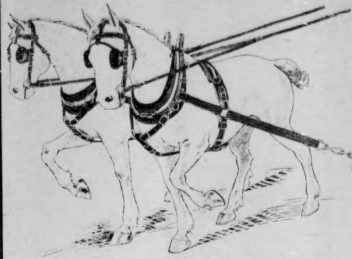

To Give Social Evening in The United Church

The Ladies' Aid of the United Church were the guests of Mrs. Clyde Hurd on Thursday afternoon. The chief business of the meeting was relative to the social evening to be given in the church, Friday, February 25th. The hostess assisted by her sisters, Mesdames Ross and Munro, served refreshments enjoyed by all.

The next meeting of the Aid will be held at the home of Mrs. J. D. James, Maple Grove Farm, on March 15th.

Mr. Hulecraft left on today's train for Lethbridge. He is expected home Saturday.

Think This Over

We challenge comparison of values when quality, service, and our guarantee of service is all taken into consideration. Don't forget that in deciding values that leather is different to any other commodity. Frequently, in fact, in most instances, an added \$2.00 spent in order to get the best, procures for you a harness that will wear perhaps twice as long as compared with the harness that you can buy at perhaps \$3.00 less. In leather goods you cannot get anything too good and it invariably pays to buy the best.

The BOW ISLAND SADDLERY

Will Take Firm Stand in Epidemics Local and General.

Wednesday evening a few friends of Mrs. Dr. Baynes surprised her at her home to wish her many happy returns of February 20th, her birthday. The evening was pleasantly spent in chatting, music and dancing, after which a delicious luncheon was served, the hostess taking their departure, leaving past a very enjoyable evening.

The Anglican Ladies Aid were entertained by Mrs. James Ripley at the home of Mrs. Alf Hulsebos on Thursday afternoon, February 27.

Pastor P. A. Rick our local S. D. A. Minister wishes to announce that services will be held Sunday, March 2nd at 2:30 p.m. in what used to be the Public School just south of town. Hereafter, this will be known as the Second Day Adventist Church.

A Social afternoon will be held at the home of Mrs. Ridgeway, Friday, March 7th, between 3 and 4:30. Bring your work bag. Every body welcome. Afternoon tea 2:30. Proceeds to go to All Saints Ladies Aid.

The Churches.

ST. ANDREW'S UNITED CHURCH. "The Four-Fold Nature of Man" will be the subject of Rev. M. G. Gilberts sermon on Sunday evening March 2. The church orchestra will lead the regular song service from 7 to 7:30 p.m. Sunday School as usual at 11:00 a.m. Prayer meeting Wednesday evening. Everyone is cordially invited to attend all of these services.

SEVENTH DAY ADVENTISTS. On Sunday, March 2nd, at 2:30 p.m. Mr. Rick's subject will be "Angels" Who and where are they? A hearty invitation is extended to all to come to our new meeting place, the old Public School just south of town and hear the good word.

CANADIAN PACIFIC Change in Train Service

Effective March 4th, 1919. Train No. 963 from Medicine Hat to Laramie will run on Tuesday instead of Wednesday, and Train No. 964 from Laramie to Medicine Hat will run on Wednesday instead of Tuesday. For further particulars apply to L. M. CULLEN, C.P.R. Ticket Agent.

Little "Flu" Found Near Paper Mills

A unique feature of the Spanish influenza epidemic in the Province of Quebec, is the fact that communities built around mills engaged in the production of sulphate and kraft pulp have escaped almost entirely any visitation from the disease or have very slightly. This is the more remarkable when it is considered that the ordinary pulp and paper centres have had rather more than their share of influenza cases, some of them being temporarily badly incapacitated owing to the shortage of help caused thereby. An explanation given by some of the chemistry experts employed by sulphur and kraft mills is that the peculiar combination of sulphur and other ingredients used in their manufacturing process, and which permeates the atmosphere throughout a wide radius, acts as a disinfectant and destroyer of disease germs. Three Rivers, Wapagauack and Brompton are among the places which have enjoyed a partial immunity to the prevailing epidemic, owing to their proximity to sulphate mills.

Municipal District of Forty Mile No. 64.

At a meeting of the Council of the above Municipal District held on February 1st, a By-law was approved and passed to borrow \$50,000 for the purchase of seed grain.
Applications for seed grain must be in the hands of the secretary not later than MARCH 6th. On that day a meeting of the Council will take place to deal with the applications.
